

Community MPs

What ideas do you have to improve our school community?

Within school

- Pets within the classroom
- Eco MPs / other children could litter pick regularly e.g. with your buddy class
- Make some art with the rubbish you found litter picking
- Lanterns / lighting for the school field so that you can see at evening clubs in the winter
- Open the KS1 / 2 gate more often
- Join classes together more often
- More time to play as a class together e.g. in the classroom
- Year 6 could meet with nursery to help them feel more comfortable
- Indoor play spaces for children who are hot in the summer / cold in the winter
- Running around the field when the class is fizzy

In the wider community

- Have play time with children from Varndean and Dorothy Stringer
- Litter picking at the park, by the beach – maybe a litter picking week?
- More bins near our school in Balfour Road
- Donate money to local projects e.g. homeless shelters
- Invite young children to come to our school
- Help older people to visit our school e.g. for concerts, shows, nativities
- Make things for people in need e.g. food
- Have a school charity that we raise money for
